Approved Canadian IEC open work permit – no sponsorship or LMIA required. Available immediately.

SUMMARY

Backend-focused Software Developer with 6+ years of software development experience, including nearly 4 years full-time, building AWS services, APIs, identity platforms, and production systems. Most recently served as the department's sole engineering representative in a core architecture group of about 10 members at freenet and owned the company's first BFF for freenet and Klarmobil, designed for campaigns reaching up to 500,000 customers. Previously contributed to six serverless backends across 18 AWS accounts. Based in Calgary with a Canadian IEC open work permit; no employer sponsorship required.

CORE SKILLS

- **Backend & Architecture:** TypeScript, JavaScript, Node.js, REST, GraphQL, OpenAPI/Swagger
- **AWS & Delivery:** AWS, Lambda, API Gateway, AWS CDK, DynamoDB, S3, AppSync, AWS Glue, CloudFormation, EventBridge, SQS, VPC, GitHub Actions, Serverless Framework
- **Operations & Security:** Datadog, CloudWatch, Sentry, Auth0, IAM, automated testing, incident response
- **AI Systems & Workflow:** Claude Code, GitHub Copilot, Cursor AI, prompt engineering, repository-level AI instructions, MCP context integration
- **Familiar With:** Python, PHP, Java, Kotlin, C#, Go, NestJS, React, Angular, Docker

RELEVANT EXPERIENCE

Software Developer **Nov 2025 – Sep 2026**
freenet DLS GmbH, Büdelsdorf, Germany

- Selected as the department's sole engineering representative in a core Architecture Management Group of about 10 members.
- Led technical discovery and designed the company's first BFF for freenet and Klarmobil across QA and production, intended for tariff-change campaigns reaching up to 500,000 customers.
- Enabled 2–3 frontend engineers to own the BFF before go-live; contributed to central Auth0 registration, JWT scopes and permissions, and production issue triage.
- Wrote a resumable Python backfill on AWS EC2 to update email-verification status for about 4.3 million customer accounts across both brands on QA and production.

Software Developer, Custom Software Engineering **Nov 2022 – Oct 2025**
Fielmann Group AG, Hamburg, Germany / Remote

- Contributed to six serverless AWS backends across 18 development, QA, and production accounts, with substantial contributions to four services and one container-to-Lambda migration.
- Helped build an hourly order-data pipeline that processed about 1 million Austrian and Swiss store-order records in six months; led the Apple Wallet integration for the online-account platform.
- Introduced Datadog and CloudWatch monitoring across all six backends and onboarded two engineers while supporting a third through the company buddy program.

Working Student, Full-Stack Developer **May 2019 – Jul 2022**
1&1 Versatel Deutschland GmbH, Flensburg, Germany

- Built internal and customer-contact applications, data-transfer workflows, and operational reporting across frontend, backend, and relational databases.

EDUCATION

B.Sc. Applied Computer Science, Hochschule Flensburg, Germany 2018 – 2022
B.A. Sociology, Georg-August University Göttingen, Germany 2013 – 2017

LANGUAGES

English (C1), German (native), French (basic)
